Max load: 520 kg

Max engine: 55 kW / 75 PS

Shaft length: Long shaft

Max people: 5

Dimensions: 4,60 m x 2,00 m

Draft: 0,35 m

Pegazus 460 is a small motorboat suitable for 5 people who want to have fun on water during a sunny day. This boat is not afraid to catch some waves even on the near-coast sea. Large steering console can fit various equipment and all engine gauges. Steersman's seat can fit two people and below it there's a large waterproof storage. Front part of the boat is a round lounge which can be transformed into sun-bed.

A reasonable 50 HP engine is enough to have fun with this boat which is accelerating fast and achieving great speed. Equipping boat with a ski handle enables the user to have fun during waters sports. It is possible to equip this boat with an audio system with waterproof speakers. After a great day we can park the boat in a harbor and put a well fitting cover to ensure it stays clean.
